Cattle Raisers Tell USDA How To Improve Regs

(CONT. FROM PAGE 1)

strong, acting on a request from USDA to assist it in complying with a Presidential order to "improve regulations," wrote, "It is important that while we are reviewing the rule-making process, we do not make it more complicated, needlessly burdensome or further establish a dangerous framework whereby prejudicial or biased information may be presented through subsidizing agency-owned testimony from the elated public."

Armstrong, representing 14,000 cattle producers in Texas and surrounding states, said in no uncertain terms that "we are adamantly against misuse of public tax monies to pay testimony from specific individuals or groups favorable to USDA positions." This was a direct reference to the allegations made against the ousted USDA official.

USDA also suggested that adequate notice of future public hearings also be made through its local news media, in addition to the Federal Register, and that the hearings be held regionally through the country. In this way, the grass roots public, urban or rural, could give USDA a perspective from the point of view of those truly affected.

"We have seen in the recent past where regulations have been proposed without sufficient impact study and the cost of such proposals was impractical," Armstrong said. Beef grading changes and certain brucellosis health regulations were mentioned specifically.

Armstrong also warned against the duplication of new regulations by authorities and agencies, in reviewing existing regulations, he suggested mandatory review of all regulations every five years and in some cases every year or two.

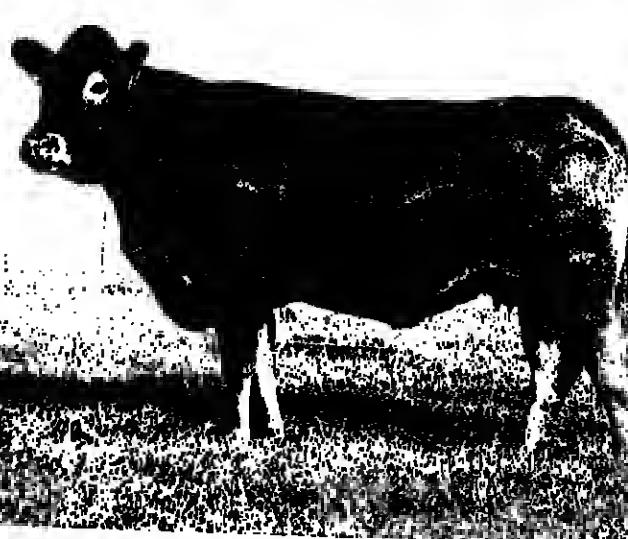

The President's mandate for reconsideration written in Plain English, understandable to those who must comply, was wholeheartedly supported by TRCA. Simplification and trimming of excessive red tape was the advice.

"USDA staff since it has reviewed and considered comments by TRCA and other groups, it will announce how it will revise its method of proposing regulations."

Hides & Offal

Don Moore, Aug. 17 (USDA) — The value of hides and offal from the average steer, based on slaughter statistics for the week ending August 16, 1978, was estimated at \$4.05 per 100 pounds live weight, compared with \$3.70 the previous week and \$3.88 a year ago.

IS JIMMY CARTER'S ADMINISTRATION STARTING TO MOULT...

While there have already been some time line changes, which indicate Jimmy Carter's Official Family for one reason or another, such as Bert Lance, Dr. Rumsfeld, Midge Costanza, et al., there seem to be rather strong indications that the usual mid-term shake-out for Official Families may be in the not too distant future for the present Administration. Rumors are flying that Transury Secy, Blumenthal has about had it after being kicked around by the White House Staff in public and in Private and other leading lights in the Cabinet and in high positions elsewhere are reportedly ready to hand in their resignation. Latest rumors have it that Joe Colantuono, head of HEW, is getting fed up and has been sending trial balloons aloft testing the waters as to whether he could get by with an "ultimatum" to give him a freer hand and to encourage the President to stem efforts to trim his domain. FmHA Authorized to Act When Disaster Confirmed, County or State Actions No Longer Needed, Time to Be Saved

Washington, Aug. 24 — Secretary of Agriculture Frank Bergland today gave the Farmers Home Administration (FmHA) authority to make emergency loans to farmers as soon as loss from natural disaster is confirmed.

The Secretary abolished a time-consuming system in effect for several years that required county governments and state governments to request disaster loan service, then for the Secretary to designate counties where FmHA emergency loans could be made. This course was followed when damage assessment reports indicated the need for 25 or more farm emergency loans in a county.

Under the new, less time-consuming procedure, state directors of FmHA will authorize the agency's county offices to make emergency loans to any number of farmers showing a need for emergency credit to offset substantial loss caused by storm, flood, drought or other natural disaster. State directors will act on the basis of available information including damage reports received from FmHA county offices.

FmHA emergency loan services are automatically available where a major disaster or emergency has been declared by the President.

Bergland's action to cut red tape from emergency loan procedure was taken under a provision of the Agricultural Credit Act of 1978, signed by President Carter Aug. 4. A regulation to implement the new procedure was published today in the Federal Register.

Fed Cattle Mostly Steady, Hogs Mostly Lower at Major Markets

Receipts of slaughter cattle were about 80% higher Monday around the major livestock marketing centers. Fed cattle were generally mixed in a narrow range and were mostly steady to a shade higher. Slaughter cows and heifers were little changed. Slaughter hogs were on hand in about the same number as last Monday, but prices were mostly steady to a shade lower. Most of the markets showed up declines. Exceptions to lower prices were noted on heavier weights, which were higher in spots. Price trends, quotations on choice and prime fed steers and heifers and the mixed good and choice grades and US 1-3 hogs weighing mostly 200 to 270 pounds included:

St. Louis fed cattle steady. Steers \$51 to \$52 and \$50 to \$51; heifers \$48.50 to \$50 and \$47 to \$48.50. Hogs weak to lower, late sales \$1 off, at \$44 to \$49.50. Sioux Falls fed cattle steady to a shade higher. Steers \$51 to \$52 and \$49.50 to \$51; heifers \$48.50 to \$50 and \$47 to \$48.50. Kansas City fed cattle fully steady. Steers choice \$50.50 to \$51; heifers \$48.50 to \$50 and \$47 to \$48.50. Joliet: steers steady to a shade higher, \$51 to \$52 and \$50 to \$51; heifers \$48.50 to \$50 and \$47 to \$48.50.

Replacement Cattle Prices Rebounded Last Week, Feeders Lead Gains

St. Joseph, Aug. 20 (USDA) — National feeder cattle and calf receipts this week 202,300, compared with 204,800 last week and 288,000 a year ago. A decided turn-around in prices was reflected in trading for feeder cattle and calves this week in a reaction from the sharp declines recorded during the recent past weeks. Feeder buyers undertook a more aggressive approach which was bolstered by price gains for slaughter steers and heifers. Prices on the river moved steady to 3.00 higher, instances 4.00 up while Kansas City had steers over 700 lbs. as much as \$5.00 up. Generally, prices over most of the rest of the nation were steady to 3.00 higher except Kentucky was 1.00-5.00 higher while Tennessee (CONT. ON PAGE 2)

Califano are suggestions that a new Education Administration be set up and this would take one of the bigger pieces out from under the Social Security system. "At present we do just that by providing substantial tax benefits for contributing to private pension plans."

While he was learnin' how to throw the \$182 Billion that HEW redistributes, he was allied with fellow like Robert Humphrey and Lyndon Johnson and as an understudy of folks like that, the redistribution of wealth was finely tuned and it was no accident that Califano picked HEW when Carter offered him a job. Sometimes it is hard for the average fellow like you and me to understand what really goes on in the minds of people like Califano, but it is possible.

For instance, Califano was recently quoted as saying the U. S. should consider scrapping existing pension plans operated privately, either by individuals or by corporations.

For information contact the sale managers, Bert & Ruben Reyes, 118 West Nakoma, P. O. Box 32828, San Antonio, Texas 78216, phone 512/340-2166; or Lick Skillet Beef-

masters under K-how plans or others of the kind or those operated by business firms. While no one will argue that many private pension plans are a mess and open to serious questions, Califano would solve all these problems by this means. "If we wish to continue to encourage private pension plans on top of Social Security," Califano asked.

Ever think, The Exhibitor.

P. S.: Uncle Dunk fuggers there ain't no better argument for less Federal Reg. than you should just turn it over to 'em and let them redistribute it according to their own sweet bleg.

We sure don't hope Joe Califano quits next week. We wish he had done it day before yesterday.

"Crimson Warrior" (4/80)

"WARRIOR" BULL HEADLINES BARFIELD BEEFMASTER SALE

"Crimson Warrior" (4/80), one of the top producing, most highly proven young bulls in the history of the Beefmaster breed, will sell in Barfield Farms' "Doubleheader Beefmaster Sale" Oct. 21 at Immokalee, Fla. The purebred sale begins at 10 a.m., and the commercial sale at 2 p.m.

"Warrior", bred by Jack Dunn, Alice, Texas, was developed, tested, and proven at Barfield Farms. "Warrior's" current bull calf crop averaged 675 pounds at weaning and gained an average of 4.3 pounds a day on test while on high roughage growing ration. His current heifer calf crop averaged 615 pounds at weaning, adjusted to 205 days. His calves and cows carrying his sires topped the 1977 Barfield sale with a "Warrior" heifer pair was the top selling lot at the 1978 Southeastern Beefmaster Sale at Tifton, Ga. Another "Warrior" heifer pair will be featured at the Southeastern sale in Jackson, Miss., on Sept. 23.

Barfield will sell these fourths interest and full possession of "Warrior" along with 500 ampules of semen. The quarter interest retained by Barfield will be used exclusively by Barfield Farms. Joining this exceptional bull will be one of the year's top solo offerings. The morning purebred sale will feature about 15 herd sires and herd sire prospects. Included will be four or five proven three-year-old bulls and about 10 top yearling "U" bulls. These young bulls represent the breeding of the most highly tested, proven herd sires in the breed. Bulls sired by such proven bulls as "Grand Champ", "Big Tom", "Warpaint", "Klarza", "King", "Madeline", "Man", "Kings", "Joe", and others will sell. These young bulls represent the top end of a group of 100 yearling bulls that gained 5.92 pounds a day on high roughage feed test.

The purebred female offering includes 25 three-in-one packages, representing the breeding and influence of these same outstanding bulls. Some exceptional young herd sire prospects sell at the side of cows bred back to Barfield herd sires. Seventeen females bred to leading Barfield herd sires sell, along with seven open heifers carrying the same breeding.

The commercial sale which begins at 2 p.m., features 50 gain tested, fertility tested proven bulls. Several "U" classified bulls will be included. They're from the same group of bulls that gained 5.92 pounds a day on test. In addition, a top end of 20 best cross Beefmaster heifers will be sold.

The sale is managed by The Cattle Marketing Group and Gerald Bowls to the auctioneer. Headquarters is the Sheraton Inn, Ft. Myers, Florida. For more information, catalogs, or reservations, contact The Cattle Marketing Group, 8600 Village Drive, 8600 Building - Suite 108, San Antonio, Texas 78217, (512) 856-2875; or Feed Barfield or Travis Wise, Barfield Farms, P. Cleburne, Texas — Ed Allen and Don Allen, owners of Allen Angus Farm near here, will host the largest one day Angus sale in the history of the breed in guaranteed dispersion and 100 percent liquidation of their Angus herd on Saturday, Sept. 23, beginning at 9 a.m. in the Johnson County Dairy Sales Barn, formerly the Cow Palace Sale Pavilion, near here.

Selling will be 600 head including three herd bulls; 10 performance tested, serviceable age bulls; 200 cows with calves at side; and 75 bred and open heifers. The sale will feature the get, service and sale of Windac Northern 114G, a straight Western Canadian bred son of "Great Northern" (CMS); Windac Skyscraper 49F, a straight Western Canadian bred son of the Regina Grand Champion, "Canadian Skyscraper," and Premier Emulous 545B, bred like the undefeated "Sayre Patriot."

Reason for the dispersion is that Ed Allen is advanced in years, and has de-

WE NOW HAVE A NEW LOCATION IN BRIDGEPORT

Powered by the swimming pool in front of Walter G. Mize's fullblood Chianina ranch's office at Glaburne are two guests, David Farrington, left, and Peter Koziah, Sr., both of Fort Worth, with Walter Mize, owner, and John Foster, ranch manager. The ranch headquarters has the pool, regulation skeet and trap shooting facilities, and a large trophy room that houses Mize's vast collection of rifles and shotguns.

John Foster, manager of Walter Mize's River Hills Chianina Ranch at Glaburne, is shown with Michaelangelo, one of Mize's four full-blood herd bulls. This one weighs 8,000 pounds at 8 1/2 years of age.

The cows pictured don't look like much because they were the recipients which bore the fullblood ova transplant calves shown, a method by which Walter Mize has built the North American continent's largest herd of fullblood Chianinas.

These yearling heifers are typical of the quality Walter Mize is building into his fullblood Chianina herd. He sells females to other registered breeders, and bulls to registered and commercial cattlemen.

Some just-weaned Chianina heifer calves at Walter Mize's ranch. At weaning at 7 months they ranged in weight from 646 to 676 pounds.

Walter Mize Has Continent's Largest FB Chianina Herd; Is Shooting For Best

Glaburne — Walter G. Mize, owner of the River Hills Chianina Ranch near here and the Lazy M Ranch near Hico, says "The popular belief that it's impossible to make money in the cattle business today is simply not true."

"I'm doing it," he added. "We're doing it with fullblood Chianinas, of which he has the largest herd in North America, more than 100 head of cows and halfreds, most of which are the result of ova transplants from the finest Chianina females and bulls he could find in Europe, Canada and the U.S. and with some of the best fullblood Chianina bulls in the country."

Mize explains that despite the belief that the high price of land, interest, taxes, labor, feed, equipment, and operating expenses makes a profit impossible in the cattle business, a profit can be made.

"First you have to have cattle that do the best job of converting feed into beef that will grade choice and will yield a high percentage of salable meat," he says. "Conversion, grade and yield are three areas in which Chianina excels. Any breed that does not excel in all three areas simply won't get the job done."

Mize says, "A herd of 240 head of fullblood cows can reasonably be expected to produce and wean at least 220 calves a year. After keeping replacements you'll have at least 160 head to sell at prices ranging from \$3000 to \$10,000, and the average recent sales has been around \$6000 a head."

"Multiply it out, and you've got a money-making figure," he says. "Mize is shooting for a herd of about 800 of the finest fullbloods that money can buy, or ova transplant can produce. To get the best he has paid up to \$250,000 for three heifers."

Mize has 1650 acres of land at Glaburne and 844 acres at Hico, and at one time had other places leased, which enabled him to run 800 cows, but has cut back the operation to concentrate on building the fullblood Chianina herd. At one time he owned half of all fullblood Chianina on the North American Continent, three heifers. The other three fullbloods were bulls in Canada and the U.S.

Mize, and his ranch manager, John Foster, intend to vigorously cultivate the demand for their fullblood Chianina. Because of the numbers involved, both bulls and females will be sold. His main selling goal will be divided equally between other Chianina breeders and commercial cattlemen. "We're producing fullbloods that will add something to any registered Chianina herd's quality, and our bulls sold to commercial cattlemen have proven that they will add 160 to 200 pounds to the weaning weight of calves from any kind of commercial cows," he said.

Chianina bulls are vigorous breeders, and regularly breed up in 60 cows each season. "If the fullblood bull costs a commercial man \$8000, he'll pay for himself the first year, by adding 12,000 pounds to the total weaning weight of his calves — and at 60 to 85 cents per pound that makes the bull pay for himself the first year," he says.

In the first of his three economic trials — feed conversion — Mize points out that one of his bulls, Leonard, gained five pounds a day on 30 pounds of feed, a conversion ratio of 1 lb. at 18 months of age. Other bulls on official feed trials recently have gained well over four pounds a day at conversion ratios as low as a pound of gain to 5.27 pounds of feed.

Mize fed out a Chianina steer to 1385 pounds that yielded 69 percent when slaughtered, and graded choice.

Mize not only is a leader in Chianina ranks as owner of the biggest fullblood herd in North America, but has been a leader in the breed organizations too, having served as chairman of the board of the International Chianina Assn. two years on the board of directors of the national Chianina Assn. and two years as president of Southwest Region of the American Chianina Assn.

"To be successful in the cattle business, you must have the largest herd, the highest quality, which I'm shooting for now, and cattle that do the job of conversion, grading and yielding," he concludes.

CHIANINA... A CUT ABOVE THE REST.

IF YOU ARE THINKING ABOUT BUYING BULLS SHOULDN'T THEY BE CHIANINA

Rate of gain is important — and Chianina bulls have proven they are fast gainers: One recently broke all the average daily gain records at Noble Foundation at Ardmore, Okla., with 4.79 lbs. ADG. Another topped the 140-day test completed July 12 at Cooke County College with 4.61 lbs. ADG, AND did it with the best feed conversion ratio of all bulls in that test, one pound of gain for each 5.27 pounds of feed.

THAT'S THE "BOTTOM LINE" IN THE BEEF PRODUCTION INDUSTRY

The Texas Chianina Assn. has a group of bulls on feed test in South Texas that will sell Nov. 5 at San Antonio . . .

MAINE-ANJOU NEWS

Part of the crowd of 250 persons who attended the Texas Maine-Anjou

TMAA Field Day At Rhone Bros. Ranch Highly Successful

Coleman, Texas — The Rhone Bros. Maine-Anjou Ranch near here was host to 250 persons of the Texas Maine-Anjou Association's field day Aug. 12. The guests participated in a weight-guessing contest won by Alan Rodgers, 16, of Blanket, who was awarded a \$50 bill. He guessed within five pounds of the weight of three hollers born May 1 and weighed a total of 8620 pounds. Two other juniors, Tamorah Golan, 14, from Burkett, missed only eight pounds, and Sherry Craig, 18, from Waxahatchie, missed 14 pounds.

Houston McBride, Bluffton, spoke on the contributions Maine-Anjous are making in increased beef production through crossbreeding in commercial herds, and selection of club calf show prospects. His children, or calves he reared, have won every major livestock show in the Southwest.

Dr. Jim Willbank, Beef Production Specialist with Texas A & M at Beaverville, spoke on the importance of conditioning females before and after calving, and demonstrated measuring the pelvic area of heifers to predict calving ease. A set of Rhone heifers measured ranged in pelvic area from 214 to 880 square centimeters. Dr. Willbank said the normal standard for cows is 180 square centimeters.

Another speaker was John Schuessler, director of advertising and sales for the Maine-Anjou Mark at Kansas

Field Day at Rhone Ranch, Coleman, Aug. 12, is shown above.

City and a partner in Mark II Council, Ltd., a sales organization, spoke on the importance of promotion of the Maine-Anjou breed. Oliver Calk of Coleman was a \$50 bill awarded as a door prize. Rhone Ranch donated the \$50.

Paul Leonard III, Fort Worth, president of TMAA, reported the association is in the process of putting together a state membership directory of current active and junior members. "Remember, we have the largest state association, the finest breeders and year after year, without fail, the best marketplace for Maine-Anjou cattle in the United States," Leonard said.

Other speakers included Roger Blackmon, Coleman county agent; and Calvin Fryar, Brownwood, past president of both Texas and American Maine-Anjou associations, and currently Region IV director on the national executive committee.

1st National Maine-Anjou Junior Heifer Show

The American Maine-Anjou Association proudly announces the sponsorship of its first National Junior Heifer Show. The show will be held in conjunction with the American Royal, November 11, in Kansas City, Missouri. Joe Lewis of the Alfalfa Lawn Farms, Larnard, Kansas — longtime cattleman and judge — will be doing the official placing. \$3,000 in premiums and awards will be offered to the outstanding heifers.

The show is open to exhibitors hold-

Don Rhone, at right, is shown presenting a \$50 bill to Alan Rodgers, left, a 16-year-old Texas Junior Maine-Anjou Assn. member from Blanket, for guessing closest — within five pounds — of the weight of three Maine-Anjou hollers. Other close guesses were turned in by Tamorah Golan, 14, from Burkett, who missed only eight pounds; and Sherry Craig, right, 18, from Waxahatchie, who missed 14 pounds.

ing Junior membership in the American Maine-Anjou Association. Eligible heifers must have been born after January 1, 1977, be at least one-half blood Maine-Anjou, and be wholly owned by the exhibitor no later than September 1, 1978.

Entry blanks may be obtained by writing the American Royal, Livestock Dept., 1701 American Royal Court, Kansas City, MO 64104. Upon completion of the form, return with an entry fee of \$10.00 to the American Maine-Anjou Association, 584 Livestock Exchange Bldg., Kansas City, MO 64102. Deadline for all entries is September 1, 1978.

National Western Show to be Showcase For Maine-Anjou Bulls

Plans have been formalized by the American Maine-Anjou Association for a bull show and sale at the National Western Livestock Show upcoming in Denver, Colorado. The show and sale will be conducted January 12, 1979, with Mark II Council, Ltd., being the sales manager.

Jerry Admison of Cody, Nebraska, will be officiating. Jerry is a prominent cattle judge and is considered to be an expert in the commercial cow-calf field. Details on participation are to be announced.

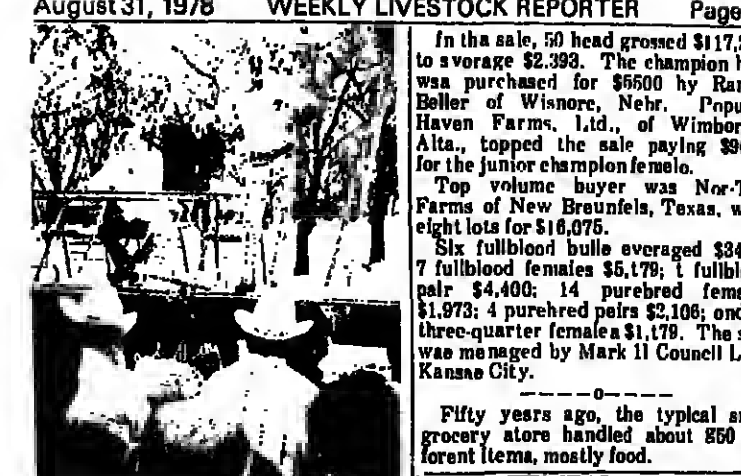

Texas gas consumption: residential 2.4%, commercial 2.8%; industrial 44.3%; electric utilities 43.4%, other 1.7%.

Haston McBride, standing, of Bluffton, whose children and calves he produced and sold to others, have won every major steer show in the Southwest. He spoke on crossbreeding and club calf selection at the Texas Maine-Anjou field day at Rhone Ranch, Coleman, Aug. 12. Paul Leonard, III, Fort Worth, president of the Texas association is seated on the stand.

Dr. Jim Willbank, Beef Production Specialist from Texas A & M U's station at Beaverville, is shown talking on "Conditioning of Females Before and After Calving" at the Texas Maine-Anjou Association Field Day at Rhone Bros. Ranch near Coleman Aug. 12. He later explained and demonstrated measuring the pelvic area of heifers to predict calving ease.

1978-79 officers of the Texas Shorthorn Association include (left to right) — Mrs. J. O. Bess III, Plainview, Publicity Officer; Mrs. Don Brooks, Rockwall, Secretary-Treasurer; Mrs. Elwood Hoberg, West, Vice President; and Mrs. Olinberger, Weatherford, President.

Shorthorn Lassies Meeting Reported

By Mrs. J. O. Bess III
Miss Christine Williams of Wylie was crowned Texas Shorthorn Lassie Queen during the state field day and annual meeting June 10 at Lott, Texas. In 1977 she served as Texas Lassie Princess. The daughter of Mr. and Mrs. Richmond Williams was crowned by 1977 Texas Shorthorn Lassie Queen Sherri Brooks. Christine has a brother and two sisters.
Miss Williams has been showing Shorthorns for three years. She owns three cows. She has held the offices of reporter, secretary, and vice-president of her local 4-H club. The Wylie High School Junior has been in P. A. two years and is chapter reporter. Miss Williams was a cheerleader her freshman year, has been on the student council the last two years, and plays summer league basketball. Her hobbies include riding horses, showing cattle, swimming, and skiing.
The new Lassie Queen will be promoting Shorthorns across the state by presenting ribbons and awards of honor and showing and visiting with the public about the English breed of cattle. The red Scottish kilt in Royal Stuart Plaid makes the Shorthorn breeder's official representative easily identifiable at livestock shows.

The amount a farmer receives for his cattle is usually determined by the "law of supply and demand," while the amount the consumer pays for the same goods is determined by the corporate law of "return on investment."

A LOT OF BULL?

You bet.

Just ask Shorthorn producer Bob Fuller of Steamboat Rock, Iowa. He reports bulls that are born uncalled, that weigh or 318 pounds, and that gain 4.20 pounds per day on a 140-day test, and that weigh 1,189 pounds at one year.

Shorthorns have always had the ability to grade choice, so when you put it together here is a breed that does it all.

Through the efforts of ASA's advancement programs and study and research by individual breeders Shorthorns' improvement is increasing all the time.

No fills, no fancies. Just a breed that means higher profits for you.

And that's no bull!
